

Week 7

Paper 1

Provide a definition for the following words:

Embalming

Mummification

Hieroglyphics

Papyrus

Blocked Channel theory

Irrigation

Purging

Sekhmet

Help Box

It is REALLY important that you know, understand and can use the key terms accurately and with confidence so make sure you can define what they mean!

Year 10 History Home Learning

Half term 1 (Sept—Oct)

The purpose of these homework tasks is to achieve two things:

1) To **revise and review the work you cover in class on the History of Medicine** in order to reduce the big revision burden at the end by keeping it 'ticking over' during the year.

2) To **gain confidence with the styles of exam questions asked.** The exams are becoming more challenging and you need to have plenty of practise at the styles of questions asked so nothing freaks you out in the real exams.

There are 7 tasks in this booklet. You complete one each week. All of it must be handed in the week before the October half term. If you need help with any of them your teacher will have a lunchtime or an after school slot for you to attend for guidance. Alternatively you can attend one of the other History teacher slots if your teacher's time does not suit you.. We will display these times outside our classroom.

In Mrs Hunter's classroom there is a revision wall with revision guides, help sheets etc—please come and help your self. Don't forget the school website. There are a lot of videos, web links, questions sheets, revision booklets etc there to help you . If you don't know where to find it—ask!

P.S— People at home will receive a text to say you have this homework pack—so be warned!

P.P.S There is a really good revision guide available—£6.50—see Mrs Hunter. It is useful to have this throughout the course, not just at the end so get it asap if you can.

Week 1

History of Medicine

Give reasons to explain why people are living longer today than at any other time in the past.

Help Box

This is not an exam question as such but is designed to get you thinking about some of the big issues connected with this course. Some areas to consider

- Knowledge of the causes of disease Knowledge of health /hygiene
- Technology/Ability to 'see' inside the body Breakthrough drugs/treatments
- However—are lifestyle choices threatening to undo this progress?

Week 6

History of Medicine

Briefly describe the ideas the Ancient Egyptians had about the causes of disease
(5 marks)

Help Box

Review your work on Ancient Egyptian people

Try to approach the question from two angles - their spiritual/religious ideas about causes and their logical/natural ideas too. Don't forget their BIG IDEA

2 paragraphs max—in the exam you would only have 5-10 mins to answer this type of question

Week 5

History of Medicine

Briefly describe the part played by religion in Ancient Egyptian Medicine (5 marks)

Help Box

Think about how Egyptian religious beliefs and practices might have influenced their medical ideas or knowledge/ understanding.

Remember religion might have helped or hindered—you can include both.

Again only 5—10 minutes write up time in the exam so 2 paragraphs max

Week 2

History of Medicine

Describe how Prehistoric people tried to treat illness and disease (5 marks)

Help Box

Review your work on prehistoric people

Try to approach the question from two angles - their spiritual/religious ideas about treatments and their logical/natural ideas too

2 paragraphs max—in the exam you would only have 5-10 mins to answer this type of question

Week 3

History of Medicine

Briefly describe how the factor of war has had an impact on the history of medicine (5 marks)

Help Box

Think about examples from History where war has either HELPED medicine progress or HINDERED medicine (held it back/made things worse)

This question allows you to use examples from any time period—have a think about the initial mind map we did in class

Again only 5—10 minutes write up time in the exam so 2 paragraphs max

Week 4

History of Medicine

Provide a definition for the following words:

Spiritual/Religious ideas

Logical/Natural ideas

Prehistoric

Trephining

Medicine Man

Charms

Chants

Nomadic

Hunter-Gatherer

Help Box

It is REALLY important that you know, understand and can use the key terms accurately and with confidence so make sure you can define what they mean!
