

Y9 Population Study. Choose one country to complete the following project about.

The Peri-ometer suggests the challenge the Home learning may offer. How **hot** are you willing to go?!

	What is the population of your chosen country?	What are the effects of population change?	How is the population distributed in your chosen country?	Who migrates and why?	What are the effects of migration?	Has anything been done to control the population?
L7	Justify your chosen country – what makes its population interesting?	Examine how and why the population has changed And predict how the population may change in future.	Produce a choropleth map showing the population distribution of your country and explain it.	Research migration stories for your country. What are the experiences of migration for people moving to or from your country?	Produce a piece of writing that persuades people that migration has had a positive impact on your country.	Research ways in which countries have tried to control their populations. Suggest a suitable scheme for your country
L6	Compare the population of your chosen country with that of the UK.	Examine how and why the population has changed	Analyse the population distribution (you could use a map)	Investigate migration to and from your country	Evaluate the impact of migration on your country	Evaluate the effectiveness of any population policies.
L5	Explain the location of your country and its population	Explain why the population has changed	Explain the population distribution (you could use a map)	Show migration to and from your country on a map	Explore any migration issues in your country.	Explain the advantages and disadvantages of a policy introduced to try to control the population
L4	Locate your country and describe its population	Choose a graph to show how population has changed and describe it	Describe the population distribution (you could use a map)	Name some of the countries which people have migrated from to your chosen country.	List some of the advantages and disadvantages of migration on your country	Describe a policy introduced to try to control the population
