

Mathematics overview: Year 9 Support

Scheme is based on 4 x 1 hour lessons a week, classes will also complete rainbow starters each lesson to build on and develop numeracy skills.

Home learning is set on MyMaths at the teachers discretion, at least once every two weeks

<u>Half Term 1</u>	<u>Half Term 2</u>	<u>Half Term 3</u>
<ul style="list-style-type: none"> • Number and the number system - prime numbers, HCF and LCM, powers and roots, types of numbers • Counting and comparing - negative numbers, fractions, symbols • Calculating - multiplication, division, calcs with decimals, bidmas 	<ul style="list-style-type: none"> • Visualising and constructing • Investigating properties of shapes • Algebraic proficiency: tinkering - simplifying, expanding, substitution, bidmas 	<ul style="list-style-type: none"> • Exploring fractions, decimals and percentages • Proportional reasoning - ratio • Pattern sniffing - sequences • Measuring space
<u>Half Term 4</u>	<u>Half Term 5</u>	<u>Half Term 6</u>
<ul style="list-style-type: none"> • Investigating angles • Calculating fractions, decimals and percentages 	<ul style="list-style-type: none"> • Solving equations and inequalities • Calculating space - perimeter, area, volume surface area of cuboids • Checking, approximating and estimating • Mathematical movement - reflection, translation and rotation 	<ul style="list-style-type: none"> • Presentation of data - pie charts, comparative charts, line graphs, frequency tables • Measuring data - investigate averages <p>End of year test</p>

Mathematics overview: Year 9 Core

Scheme is based on 4 x 1 hour lessons a week, classes will also complete rainbow starters each lesson to build on and develop numeracy skills or a weekly skills test which builds on key skills.

Home learning is set on MyMaths at the teachers discretion, at least once every two weeks

<u>Half Term 1</u>	<u>Half Term 2</u>	<u>Half Term 3</u>
<ul style="list-style-type: none"> • Number and the number system - prime numbers, HCF and LCM, powers and roots, types of numbers • Calculating - multiplication, division, calcs with decimals, bidmas • Visualising and constructing 	<ul style="list-style-type: none"> • Understanding risk I • Algebraic proficiency: tinkering - simplifying, expanding, substitution, bidmas • Exploring fractions, decimals and percentages 	<ul style="list-style-type: none"> • Proportional reasoning - ratio • Pattern sniffing - sequences • Investigating angles
<u>Half Term 4</u>	<u>Half Term 5</u>	<u>Half Term 6</u>
<ul style="list-style-type: none"> • Calculating fractions, decimals and percentages • Solving equations and inequalities • Calculating space 	<ul style="list-style-type: none"> • Algebraic proficiency: visualising • Understanding risk II 	<ul style="list-style-type: none"> • Presentation of data - pie charts, comparative charts, line graphs, frequency tables • Measuring data - investigate averages <p>End of year test</p>

Mathematics overview: Year 9 Extension

Scheme is based on 4 x 1 hour lessons a week, on the fourth lesson; students will complete a weekly skills test to build on key skills.

Home learning is set on MyMaths at the teachers discretion, at least once every two weeks.

Half Term 1	Half Term 2	Half Term 3
<ul style="list-style-type: none"> Calculating - multiplication, division, calcs with decimals, bidmas Visualising and constructing Algebraic proficiency: tinkering 	<ul style="list-style-type: none"> Proportional reasoning – ratio Pattern sniffing - sequences 	<ul style="list-style-type: none"> Solving equations and inequalities I Calculating space
