

ENGINEERING

Course Detail BTEC 1st Award in Engineering

Exam Board Edexcel

This is a Level 2 course equivalent to 1 GCSE at grades 9-4.

ASSESSMENT

The course is assessed through a one hour external assessment set by the exam board and by three Internal school assessments over the two years.

WHAT YOU WILL STUDY

You will study four main units over the two years, including Health and Safety in Engineering and Investigating Engineering Products.

WHO SHOULD DO IT?

*This subject provides an opportunity to explore the wide variety of engineering that is available. Students considering a job within engineering may wish to consider choosing this option although it is not the only route into engineering. **You need to have a good interest in Engineering and understand that there is a large element of theory work on this course***

ENTRY REQUIREMENTS

The minimum requirement is to be working at Level 5 and above in English and Maths. An interest in Science will also be useful for this course.
